Okido Yoga, founded by a Japanese master, Masahiro Oki, is based on the belief that true knowledge comes from an awakening of deep personal inner wisdom and that this can only be gained through individual experience of the natural laws of *Change, Balance and Stability*. Its practice addresses four aspects of human development - diet, breath, movement and mind-heart, whilst considering life holistically. It also emphasizes the importance of learning to work with and for others as it is not possible to create a balanced life that does not include harmonious and caring interaction within society. Its teachings are understandable and practical in the modern way of life. Okido Yoga is neutral from any religious group, and yet respects one and all beings.

This Course is an intensive yoga residential course, aiming at an enjoyable experience of the essence of Okido Yoga: Co-Existence, Co-Happiness. Okido Yoga UK has been offering yoga residential courses with this spirit since 1986.
